From now on until the opening of the Chautauque Mayville boys and girls will be busy hunting words. At a meeting of boys and girls under 13 at the Junior Redpath headquarters in the kindergarten room on Third street Mr. Speck, advance man, told the children all about the big time they are to have during the chautauque week. The kiddies can hardly wait so in order to keep them busy a word contest was started. They are to see how many words they can make from the letters found in Junior Redpath Club. No letter is to be used more than once and the two winners will be given story books as prizes. Miss Annabelle Lewis was in charge of the Wednesday meeting and will assist Miss MacGillivray the Redpath children's worker during the chautauque week. Another meeting of the children will be held next Saturday at 4 o'clock in the Junior headquarters room. All failing to get to the first meeting should be present Saturday and get in on the work contest.

Mr. Lind Mills has returned from a business trip to Cincinnati.

DANIEL CONWAY DEAD

Daniel M. Conway, 45, died Tuesday morning after undergoing an operation at the home of his brother, M. F. Conway, 1625 Scott street, Covington. He had resided with his family at El Paso, Texas, where he was connected with the Southern Pacific railroad. He was formerly a resident of Covington, being employed as a conductor on the Chesapeake & Ohio railroad. A widow and three children survive. Mr. Conway was a 32 degree Mason.—Cincinnati Times-Star.

Mr. Conway is a brother-in-law of Mr. Elwood Rorer of Front street and was very well known in this city having passed through here many times.

Captain E. T. Klrker, one of Ripley's well known and most substantial citizens, died last Sunday evening after an illness covering several months. The funeral was held Wednesday afternoon at 2 o'clock from the family residence in East Ripley, the Masonic Fraternity having charge of the services.

Mr. Gerald Murphy of East Fourth street left Wednesday on a short trip to Louisville.

AMERICAN SOLDIERS KILLED IN BATTLE WITH CARRANZAISTS

Victims of Attack Probably Negroes of Tenth Cavalry—Carranza Men Say Forty of Pershing Troopers Are Slain—Seventeen Others Taken Prisoners.

El Paso, Texas, June 21.—A detachment of American cavalry engaged with Carranza forces at Carrizal, about ninety miles south of El Paso early today, both sides suffering heavy casualties, according to unofficial reports received by Mexican military authorities tonight. According to the report which the Mexican authorities are investigating, forty Americans were killed by machine gun fire in a surprise attack.

The Mexican casualties were said not to have been heavy, but General Felix Gomez is named among the Mexican dead.

The American command is said to have been part of the scouting patrol from Guzman, returning to General Pershing's line of communication.

Later General Francisco Gonzales, Mexican commander at Juarez, gave out the statement in which he announced officially that the Mexican command had taken seventeen American prisoners. He also said General Gomez's death had been confirmed, but said he had no official reports as to the number of casualties on either side.

The wounded, both American and Mexican, the exact number of whom is not known here, were taken to Villa Ahumada.

Ask Americans to Withdraw.

General Francisco Gonzales made the following statement: "Immediately upon learning of the presence of American troops in the vicinity of Carrizal, General Gomez dispatched a message with a request that the American commander withdraw his camp. When the American troops remained motionless he sent a second dispatch, saying, 'who was fired upon by the American troops after he delivered his message. The Americans immediately moved forward and attacked General Gomez's command.' "All the prisoners admitted that the blame should be put on the American commander for having ordered the attack. The prisoners were taken to Chihuahua City with the customary protection."

General Gonzales said that the report of the engagement was made to him by Lieutenant Colonel Genovese Illias, who succeeded to the command of the Carranza troops with the fall of General Gomez. General George Bell, Jr., who was first informed of the fight by Mexican Consul Garcia, said that no military action would be taken in El Paso while orders were awaited from General Funston. In the meantime, he said, his forces were ready for any demonstration from the other side of the Rio Grande.

General Bell said there was no question but that a fight had taken place but was inclined to disbelieve the report that any American had been taken prisoner.

Victims of Attack Probably Negroes of Tenth Cavalry

El Paso, Texas, June 21.—Consul Garcia announced over the telephone from Juarez late tonight that he had received official confirmation of the fact that the American command engaged was part of the Tenth Cavalry, a negro regiment. He had no details, however, as to the number of Americans or Mexicans engaged, he said.

Funston Confirms Story of Fight. Washington, June 21.—General Funston reported late tonight that he had received official confirmation of a clash between Carranza and American troops early today near Carrizal, Mexico. He had no details of the incident however, except those provided by Mexican officials at Juarez. General Funston transmitted to the War Department a report from General Bell at El Paso of the fight.

"There was a clean this morning at Carrizal, near Villa Ahumada, between Carranza and American troops in which General Gomez and other Mexicans were killed, the number unknown. Number of Americans killed or wounded unknown."

"General Gomez sent a captain with an order to the American commander to turn back, but the American commander said he was going to Villa Ahumada and opened fire on the Mexican captain, wounding him. The Americans attacked General Gomez but were thrown back. The prisoners were sent to Chihuahua."

"Garcia said this was telephoned at the request of General Gonzales. "An American, who was in the train today passing Villa Ahumada at 2:30, said he saw several dead Mexicans put on his train, among them a dead Mexican general. There were also several Mexican wounded. He gathered from the talk there that the fight was with American cavalry nine miles west and that the Americans were decoyed into a trap by the use of a Mexican flag of truce and they were then fired upon by machine guns. Reports state our troops engaged were the Tenth Cavalry."

Pershing Reported Disarming Natives. El Paso, Texas, June 21.—Pershing rumors were current in El Paso tonight that General Pershing had seized the towns of Nuevo Casas Grandes and Casas Grandes, about nine miles from Dublan, had captured a quantity of Mexican Stores and was disarming the natives. It was pointed out that Casas Grandes, located on the line of the Mexican Northwest Railway, is an important strategic point.

Miss Dorsey for the past few years has made her home in the Hancock Boarding House on Limestone street.

She has accepted a position as head of the history department in the Ashland, Ky., High School and will commence her work there at the beginning of the coming school term.

During her seven years stay in this city Miss Sutherland has made a host of friends among her scholars and among the townspeople. In general her work has been entirely satisfactory at all times and her resignation was received with regret by the school board.

BOOSTERS, SHOWERS AND PUSHERS

This town is full of boosters, showers and pushers, and each is working valiantly toward a common end. The only difficulty in the accomplishment of definite results, as we see it, is that some begin at the bottom and work upward, while others start at the top and slide down.

Thus it is that when the two forces meet there is an inevitable conflict of opinion and resultant confusion, ending, as usual, in nothing being done.

It is a law of human nature that the child must first learn to crawl before it can walk, and the corn must sprout before it can grow. In each, you will note, the beginning is at the bottom.

And so it should be with us as a community.

No satisfactory results are ever accomplished when a majority of the people are working at cross purposes, for that which is created by one is dissolved by another.

We have the boosters, the showers, and the pushers in this community, but what we need is a unity of purpose, each with his eye centered upon the goal ahead, and not upon the one behind.

The mule is prone to move backward when its strength and energy is most needed in a strong and determined forward movement. And we, brothers, should not emulate the mule.

It would be a splendid thing for this town if we could get all of the boosters, and showers, and pushers together and fix our minds upon one certain goal, and then each boost side by side and all together as a unit until we attain the desired end. But success will come only by beginning at the bottom and working upward—always upward—with never a halt or backward glance until we reach the top.

In Bible times Lot's wife looked back and was turned into a pillar of salt. Now salt is a very useful article, but it does not figure in the scheme of community development.

We don't want any mules or pillars of salt to retard our forward movement, but we do want men and women of resource and determination who will meet on a common ground and all labor, and march and push, and shove in the same direction and to the same end—always forward and upward.

We want to make a bigger and better and more prosperous place of our home community, but it is difficult of accomplishment when so many insist on beginning at the top and sliding downward.

Isn't it possible for us to adopt a different policy, one upon which we may all degree, and in behalf of which we may labor in unison?

There are many and glorious possibilities ahead of us as a commercial and industrial proposition, supplemented by that most reliable of all industries—agricultural development and expansion.

Our interests all lie in the future, and not in the buried past and its sorrows and disappointments.

There is life and achievement ahead, but it will require thought, energy, and unity, and action to accomplish results.

Can we not inject new life into our boosters, and showers, and pushers? Can we not utilize their wonderful store of intelligence, and energy, and perseverance that is now lying dormant?

As one of them, brother, what do you think? What have you to say? WHAT ARE YOU WILLING AND READY TO DO?

The indirect benefits derived from a protective tariff are no less important than the direct effects. For instance, Maine, New York, North Carolina, Pennsylvania, Connecticut, Maryland, California, New Hampshire and Virginia, are producers of feldspar, in the relative order named. A bulletin of the Geological Survey informs us that feldspar is used in glazing pottery and in the manufacture of enameled ware. A protective tariff on pottery and enameled ware will, therefore, not only build up those industries in this country but furnish a market for the feldspar produced in the states named.

AMERICA'S AIM

Is Only To Protect Rights of Citizens, Says Herald.

New York, June 20.—Editorial comment on President Wilson's note to Carranza in New York papers follows.

HERALD.—The President's note, which is in effect a rejection of a demand, although not an ultimatum, discusses extensively the whole question for the benefit of the entire world. We seek no territory. We are not making war upon Mexico. We are only seeking to protect American rights and property and to restore order. The result rests with General Carranza. It war shall follow it will follow when the Mexicans attack American troops. The country expects that the President in that event will bend every energy and expend every resource to strike blows so rapidly, so decisively, that this second war with Mexico shall speedily become a thing of the past.

ST. LOUIS TIMES.—Carranza is biting the hand that fed him. Without the approval of the Administration at Washington he would be no more than the other Mexican bandits today. He must go. He is as dangerous to the future of Mexico as he is to the border of the United States.

GLOBE-DEMOCRAT.—The note of Mexico is a strong and complete indictment of the de facto government and complete indictment of the de facto government and its First Chief General Carranza. That this communication will meet with the approval of the country cannot be doubted. There must be no more half-way measures, no more stopping at Vera Cruz or Nampulpa. We have our self respect and the respect of other nations to restore, as well as to effect the restoration of peace and order in Mexico, and we cannot accomplish these things by hesitation.

BALTIMORE AMERICAN.—The American Government has no designs upon Mexican territory. Mr. Wilson has nothing to do with the views of any set of Americans as to the inevitable trend of American influence. He simply deals with the facts. The United States is absolutely free of designs against Mexico.

"What motive could this Government have had in refraining from taking advantage of opportunities," he asks, "other than unselfish friendship for the Mexican Republic?"

The argument should set at rest any uneasiness among the people of the other Latin American states.

CHICAGO HERALD.—Now that our relations with Mexico have entered a notably critical phase no disposition appears on the part of either Republican or Democratic member of Congress to criticize or hamper the President. The effect of the strong note which Secretary Lansing has just sent to Carranza, and of the report of the mobilization of the National Guard now in process, will be heightened by the evidences of a disposition at Washington to give the President a chance to bring the Mexican problem to a peaceful solution.

PITTSBURGH CHRONICLE - TELEGRAPH.—Our Government's reply to Carranza's demand for the withdrawal of United States troops from Mexico is said to be vigorous in tone, with a sharp rebuke for the insolence of the First Chief and his insinuations that President Wilson was playing to a political grand stand. The mobilization of troops was the real answer. We cannot now abandon the unpleasant job after it has been begun. The ominous indications are that Carranza will be so busy arranging to repeat what he considers plans for a new invasion that he will not have time for thoughtful analysis of President Wilson's academic phrases.

PITTSBURGH LEADER.—The people of this country do not crave war. The writing of current history in the blood of Europe's men has horrified them. But the United States has been long suffering. Insult has followed insult until Mexican bandits and raiders seem to no longer respect the American flag. There is more than a question of intervention in the Mexican situation. It is a case of keeping blood-thirsty Mexicans south of the Rio Grande.

WARSHIP'S STEAM FOR SOUTHERN WATERS — COMMANDER OF PACIFIC FLEET ABOARD CRUISER SAN DIEGO

San Diego, Cal., June 20.—With Admiral Winslow, Commander in Chief of the Pacific fleet, aboard in the armored cruiser, sailed from this port before noon today for either Guaymas or Mazatlan, Mexico.

Two hours after the San Diego left port the torpedo boat destroyers Hull, Truxton and Hopkins sailed for the south. It was stated that the destroyers are under orders to overtake the San Diego.

Rear Admiral Fullam, commanding the Pacific reserve fleet, received orders for the armored cruisers Pittsburg and Colorado to proceed south. The two ships left this afternoon, proceeding to ports to be designated later by Admiral Winslow.

DR. JAMES S. KIRTLEY.

"IN the Barefoot Kingdom" is the subject announced by Dr. James S. Kirtley, who is to be here on the fourth day of the Hedpath Chautauqua. It has been said that Dr. Kirtley's hobby in general is people and that he specializes in boys. His two special characteristics are originality and humor. You may have heard a lecture about boys, but you haven't heard a boy lecture that is anything like "The Barefoot Kingdom." The most distinctive impression one gets from this lecture is that the speaker was once a boy and knows exactly what's in a boy and what ought to be in one.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. POLICIES ON LIVES OF GUARDSMEN OF NEW YORK ARE TO BE SUBJECT TO PREMIUMS

New York, June 20—A number of insurance companies with headquarters in this city have placed special premiums on new life insurance policies issued to national guardsmen responding to the President's call, it was learned today.

One company announces a premium of \$25 for each \$1,000, with policies limited to \$2,000 if the guardsmen go to war. Another fixed its premium at \$50 for each \$1,000, with the insurance expiring if the holders cross into Mexico. A third company announced it would continue to accept policies up to amounts of \$5,000, but that advance payments of premiums which will not increase must be made covering the next three years.

Each of these companies, it was stated, would not revoke agreements made under existing policies of guardsmen.

EMPLOYEES OF U. S. ARMY ARE SAFE

Washington, June 20—The Civil Service Commission ruled today that Civil Service employees will not lose their positions through absence of less than one year for military service, and announced that where absences of more than a year are necessary the commission will recommend reinstatement by the President.

Hundreds of Government clerks here and in other cities are members of the national guard and are being mustered in for border duty.

President Wilson and his Cabinet discussed today plans for preventing loss of salaries or positions by all Federal employees called into service by the national guard mobilization order. Members of the Cabinet said afterward some way would be found.

Congress, it is said, might be asked to pass special legislation covering such cases.

The ruling of the Civil Service Commission reads:

"When a department or office of the Government desires to fill a vacancy resulting from the absence of a competitive classified employee who, as a member of the national guard or organized militia, is called for duty on account of the unsettled conditions in Mexico, the commission will authorize the filling of such vacancy temporarily from the eligible registers for temporary appointment pending the return and reinstatement of such classified employee. In the event the absence shall continue for more than a year, the period of eligibility for reinstatement under the rules, the commission will recommend to the President that his period be extended to permit reinstatement."

AMERICAN SHIP HIT BY A MINE ON A TORPEDO

London, June 20—The officers and crew of the American steam Seaconnet, which went ashore on the Scroby sands Sunday following an exterior explosion, reported at the American consulate today. They affirmed that the result of an explosion from without, but were unable to say whether a mine or a submarine was responsible, although marine authorities at Yarmouth had expressed the belief from an examination of portions of metal found in the hull of the vessel that a torpedo did the damage.

Captain Butler, commander of the Seaconnet, which was bound from Archangel for London with timber, is remaining at Yarmouth for an effort to save the steamer. Although she is resting on a sandy bottom he has little hope of succeeding in the attempt to save her.

The portions of metal recovered from the Seaconnet will be brought here and turned over to Coast General Skinner tomorrow. According to the sailors these pieces are heavy and brass-like.

The Seaconnet was about sixty miles east of Yarmouth when a terrible explosion shook her. Captain Butler headed the steamer shoreward, finally reaching the sands, but a heavy sea made the position of the crew precarious. Lifeboats from Yarmouth, however, rescued every one.

The Seaconnet had on board a cargo of commercial lumber consigned to a private firm in London. She flew the American flag and had flags palated on each side of the bow.

The guns used in 1812 at the bombardment of Alexandria, Egypt, were of sixteen-inch bore, an inch larger than the largest British naval cannon of today, while four years later that navy had guns of 16.25 inches calibre.

MEXICANS FIRE SHOTS AT AMERICAN FLAG OVER U. S. CONSULATE

Douglas, Ariz., June 20—The American flag, flying over the hotel in which was located the office of American Consul W. A. Julian, at Cananea was made the target of hundreds of Mexican bullets during the anti-American demonstration last Saturday night, according to American refugees arriving here today. After daybreak, when the demonstration ended, the emblem still floated in the breeze.

Numerous bullets struck the hotel, endangering the guests, who were nearly all Americans. The mob shouted maledictions against the "gringos."

After filling the flag with holes the mob directed its fire at the flag pole but were unable to cut it.

Grisee was prevented last night from crossing into Mexico.

Agents of the Department of Justice are maintaining secrecy regarding the exact allegations against Grisee pending investigation. It is said, however, that his detention was an outcome of various reports regarding the spreading of anti-American propaganda in Mexico.

He spent last night in jail, but was released today. Meantime Washington has been notified.

RECORD OF THE PAST
No Stranger Evidence Can Be Had In Maysville

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back; any reader suffering from urinary troubles, from kidney illa, should find comforting words in the following statement.

Mrs. John Burns, Maysville, says: "I was subject to several spells of backache and kidney trouble. They came on every three or six months and at times I was confined to bed and almost helpless. I used Doan's Kidney Pills and they gave me quick benefit. Since then when I have noticed slight return attacks of backache, I have used Doan's Kidney Pills and they have never failed to quickly check the trouble."

OVER SEVEN YEARS LATER Mrs. Burns said: "The statement I gave before praising Doan's Kidney Pills still holds good. I know that this medicine acts as represented."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Burns has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

Washington, June 20—An effort by Senator Overman to have Senator James' speech before the St. Louis convention printed as a public document was blocked in the Senate today by Senator Smoot, who refused unanimous consent on the ground that no convention speeches should be circulated at public expense. Senator Overman's request was referred to the joint committee on printing. It is not probable that it will be printed.

Belle of Maysville

The most wonderful whisky that ever drove the skeleton from a feast or painted landscapes in the brain of man. It is the mingled souls of wheat and corn. In it you will find the sunshine and the shadow that chased each other over the hilly fields; the breath of June; the carol of the lark; the dews of night; the wealth of summer; and Autumn's rich content—all golden with imprisoned light.

Drink it, and you will hear the voices of men and maidens singing the "Harvest Home" mingled with the laughter of children. Drink it, and you will feel within your blood the star-lit dawns, the dreamy, tawny dusks of many perfect days. For many years this liqueur joy has been confined within the happy staves of oak, longing to touch the lips of man.

Yours for, \$3.00, \$4.00 and \$6.00 per gallon. Sold only by

The Factory Behind the Food

More than forty different kinds of corn flakes were prepared experimentally before **New Post Toasties** were finally developed to perfection. As a distinguishing feature, note the tiny bubbles on each flake—raised by the quick, intense heat of a new, patented process of manufacture.

New Post Toasties are the first corn flakes with a self-developed flavour—the full, true flavour of choice white Indian Corn—unlike common "corn flakes" that depend largely on cream and sugar for their palatability.

Try a handful dry—this simple test will demonstrate the delicious new flavour. But the flakes are usually served with cream or rich milk.

New Post Toasties do not "chaff" or crumble in the package, and they "stand up" when cream or milk is added. They're untouched by human hands and put up in moisture-proof packages to preserve their oven freshness until served.

HURLEY CUBS RETURN TODAY

The Hurley Cubs will return today for four games with Frankfort and four with Portsmouth. The trip abroad has been somewhat of a disappointment as the team did not get to play half of the games scheduled on account of rain and wet grounds. Although the boys put up a classy line of baseball during their trip they did not seem to be able to get all of the games that they should have won. If the weather would clear up for about a week the boys would be able to connect more with the ball, but it seems as if the rainclouds are croaking from every tree. Besides, the home boys have evidently been getting the worst of the umpiring as the following note from Wednesday's Huntington Herald-Dispatch would go to prove:

"During the game Manager Jones made the following statement:

"Franklin is incapable of umpiring in organized baseball. He is either blind or has something against my club. I can truthfully say that his decisions have lost five games for me on this trip. I am sincere in saying that he is the poorest umpire in anything that he is the poorest umpire in the league."
